

CASE STUDY: BOOST YOUR WELL-BEING WITH GUNALIGHT

**Daily Energy, Mood, & Immunity
Enhancement**

Submitted by:

Dr. Mackenzie Dawson Agnew, Dr. Ac, CPT, CSN

CASE STUDY OVERVIEW

This case study showcases the journey of a family of four embracing home-based care using Gunalight under the instructions of Dr. Mackenzie Dawson Agnew and the transformative results they witnessed.

Participants Two adults and two children in the same family self-treated with Gunalight at home.

Protocol Each family member engaged in a self-treatment routine, targeting three specific points on both sides of their body for one minute each. Treatment points recommended were based on each participant's symptoms. This totaled to a six-minute daily ritual dedicated to their well-being.

Compliance No errors or missed days.

Duration 120 Consecutive Days

ADULT PARTICIPANTS AND RESULTS

ADULT 1:

Acupuncture Points Treated:

KI 1 (Kidney 1), SP 6 (Spleen 6), and PC 7 (Pericardium 7)

Adult #1 presented with a complex clinical picture characterized by hormonal imbalances leading to dysmenorrhea and menstrual irregularity, diminished energy levels, the phase-out of pharmacological sleep aids, mood instability, and reduced immune efficacy.

RESULTS:

After treatment, Adult #1 experienced regular, pain-free menstrual cycles, improved energy levels with occasional naps, cessation of sleep medication under doctor's supervision, significantly better moods, and enhanced immune system function.

ADULT 2:

Acupuncture Points Treated:

LR 3 (Liver 3), LI 4 (Large Intestine 4), UB 40 (Urinary Bladder 40)

Initiated the protocol to address tightness in the trapezius and upper back, alongside aims to enhance overall well-being.

RESULTS

Results indicated enhanced mobility and reduced stiffness in the trapezius and upper back areas, better recovery post-exercise, and a notable increase in positive mood frequency.

CHILD PARTICIPANTS AND RESULTS

CHILD 1:

Acupuncture Points Treated:

SP 3 (Spleen 3), HT 7 (Heart 7), LI 11 (Large Intestine 11)

Child 1 initiated the treatment presenting with symptoms such as irritability, difficulty in mood regulation, and compromised immune system functionality.

RESULTS:

Parents report significant improvements in mood regulation and a complete absence of colds or illnesses during the Gunalight treatment. The child's immune system has notably strengthened, leading to thriving academic performance and a markedly more agreeable demeanor.

CHILD 2:

Acupuncture Points Treated:

ST 36 (Stomach 36), LU 7 (Lung 7), and KI 1 (Kidney 1)

Initially presenting with under-eye bags, speech difficulties, a weakened immune system marked by regular illness, along with headaches, stomach pains, food sensitivities, and challenges in emotional regulation.

RESULTS:

Child 2 experienced remarkable improvements: the under-eye bags disappeared, emotional stability was achieved, and academic performance improved significantly, allowing advancement to the next grade contrary to initial expectations. Also, notable improvement in speech and a marked reduction in the frequency, severity, and duration of illness.

SUMMARY

Embarking on a journey with the Gunalight, our participants discovered the transformative power of regular, at-home treatments. Each 6 minute session, a daily ritual, brought significant enhancements in mood, energy, and immune function, showcasing the device's remarkable capability to not just heal but to revitalize from within.

This wasn't merely about following a regimen; it was about embracing a lifestyle where positive energy and well-being lead the way. Gunalight, beyond its therapeutic benefits, emerged as a beacon of self-care, empowering individuals to maintain their health and harmony between professional visits. It addressed specific energetic imbalances with precision, offering a tailored approach to wellness that resonated deeply with each user.

As a bridge to sustained health, Gunalight enabled our participants to take control of their well-being, illustrating the profound impact of integrating such a practice into their daily lives. Their stories of transformation are not just testaments to the device's efficacy but also to the power of proactive self-care in cultivating a life filled with health, happiness, and resilience. Through the Gunalight, they found not just healing, but a renewed zest for life, making it an indispensable part of their journey towards a brighter, healthier future.

THANK YOU!
